Help preserve the past

Volunteer site stewardship training workshop

Webinar **April 30, 2022**, 9:00 am to 3:00 pm

This training is the first day of a two-day workshop to train California volunteer site stewards. This free Zoom webinar lasts six hours, including a one hour lunch break. Although there is no cost, you must register at <www.cassp.org> starting March 11. Webinar contents include archaeological background, awareness of prehistoric and historic resources, safety first, and legal protections for archaeology.

The second day of the workshop will be held for those who attend this webinar. It's an in-person, small group, field training. It will be scheduled during the following weeks, as conditions allow, at Los Padres National Forest and at Cleveland National Forest. The second day also requires a separate registration, signed confidentiality agreement concerning site locations, and a \$25 fee.

CASSP training workshop held at Clear Lake State Park in 2014.

Registration opens on March 11. Other agencies may be added. This announcement is dated February 25, 2022; for the latest update, visit <www.cassp.org> or contact Beth Padon at <bpadon@sitestewardship.org>.

This workshop is funded by the generosity of donors to Partners for Archaeological Site Stewardship, a 501(c)(3) nonprofit corporation located in Long Beach, California. In-kind support is provided by Los Padres National Forest and the Cleveland National Forest.
